Highlights: This ride will highlight the historic Lincoln Mining District, the first lead mine in Utah, where riders will be given a brief history of this area. The tour will showcase the Creole Mine where riders will witness water flowing out of the mouth of the mine after early miners struck an underground aquifer. For lunch, the ride will stop at the Minersville town park where restroom facilities are available. The ride will also include a trip up Jacks Peak, which affords a scenic overlook of the Milford Flat. This is a popular ride with locals and visitors.

Trailhead: This ride begins at Minersville Lake Park 11 miles west of Beaver on Hwy 21. The park contains parking areas, ATV accessible camping, Restroom facilities and numerous recreational opportunities. Minersville Lake is considered a trophy trout lake. THIS IS A TRAILERED RIDE.

The Trail: This is a moderately easy trail containing a few short intermediate sections of tight boulder strewn washes and semi-steep slippery hill climbs. Part of the trail follows old mining roads through the southern tip of the Mineral Mountains. These are narrow bladed roads that are rough and unmaintained. Newly created ATV trails connect road sections together. The remainder of the route will follow some maintained County roads and old jeep trails.
#2 Rock Corral Loop

**Highlights:** For those looking for scenery, this trail showcases the granite peaks of the Mineral Mountains. Look for the circus bear and dinosaur within the rock formations as you travel past large granite monoliths along the route. One special point of interest will be the Indian rock paintings, which are very unique and different from typical petroglyphs. Lunch will be at the Rock Corral picnic area where restrooms are available. This is one of our most popular rides.

**Trailhead:** This ride leaves from the Beaver City Complex. NOT TRAILERED.

**The Trail:** Most of this ride is on county roads, but there are sections that follow old jeep trails including some steep hill climbs. There is also a rocky narrow trail section across the Mineral Mountains. This ride is considered an Intermediate level ride because of the challenging hill climbs and rough trail sections. You will love this ride.
Highlights: This ride takes you into the lofty Tushar Mountains to the base of towering Mount Baldy. From the trail, the mountain ridges will stretch above you toward the clouds, leaving you completely breathless. You will cross over Tanner Mountain into Indian Creek and take a ride up Twitchell Canyon. The scenic views along this ride are unparalleled. A lunch stop will take place at Manderfield Reservoir where restroom facilities are available. There are many water crossings on this ride and the highlight will be a stop at the Picture Rock Quarry. Picture rocks are shale rocks with intricate designs resembling art pieces and you will have the unique opportunity to see these special rocks. This was voted the “most popular ride” of 2018 and will again be a centerpiece of our jamboree this year.

Trailhead: This ride leaves from the Beaver City Complex.

The Trail: This ride primarily follows Forest Service roads and jeep trails up deep canyons and over high ridge tops covered in mahogany, aspen and spruce. You will make numerous stream crossings of North Creek as you travel up the Forest Service road. The ride will then cross over the mountain along a rocky and rugged jeep trail. Be aware that a heavy winter snowpack could potentially affect this ride.
#4 Historic Cove Fort Ride

**Beginner**

(Open to all ATVs/UTVs)

**77 Miles**

**Highlights:** This ride focuses on a stop at historic Cove Fort where riders will get a tour of the refurbished pioneer fort. There is a lot to experience at the fort which includes a short movie, which is a must see if you are a history buff. The Fort offers daily tours and has picnic and restroom facilities. The ride also contains lots of great scenery and wonderful vistas as you travel the foothills of the incredible Tushar Mountains. One notable section will be Pine Creek Canyon with numerous stream crossings of the cottonwood lined creek.

**Trailhead:** This ride leaves from the Beaver City Complex. NOT TRAILERED.

**The Trail:** This ride is considered easy and suitable for all rider skill levels. The route follows existing County roads, powerline and Forest Service roads.
#5 Rattlesnake

**Intermediate Plus**  (Open to all ATVs/UTVs)  77 Miles

**Highlights:** Rattlesnake offers some of the rockiest, gnarliest stuff we have to offer. You will enjoy big wide open, wild, sage brush country through open rolling terrain that was deforested by wild fire long ago. The highlight of this ride will be a breathtaking vista of the Parowan Valley when you reach the top of the Bald Ridges. This is unique country, with plenty of deer and wildlife inhabiting this area. The name Rattlesnake originating from the rough jagged terrain.

**Trailhead:** This ride leaves from the Beaver City Complex. **NOT TRAILERED.**

**The Trail:** This ride will follow some county roads into the hills, then you will mostly be on two-track roads across some treacherous and rocky terrain. There are some long boulder fields and a few steep rocky sections. This is one of the more advanced level rides.
### #6 Mag’s Brothel

#### Intermediate

(Open to all ATVs/UTVs)

#### Highlights:
This ride will pass through some stunning country with lots of gamble oak and mahogany covered hills. There are exciting hill climbs and fun twisty trails. We will take a step back in time as we stop to see the remnants of Mag’s famous brothel and bathhouse. Another highlight is a stop at an old miner’s cabin that was built into a giant boulder. Finally, we will stop at a Depression Era cement reservoir built by the Civilian Conservation Corp in the 1930s. The spectacular rock formations and views will thrill you. Michelle was one of the guides last year for this ride because it is one of her favorite areas.

#### Trailhead:
This ride leaves from the Beaver City Complex.

**NOT TRAILERED.**

#### The Trail:
This ride will begin on graded County roads then turn to two-track roads, but there are some trail sections with challenging and steep hill climbs that will get your heart racing. You will also wind through some tight trails among huge granite boulders and rocky hills. You will definitely be surprised as you round corners to find the next view. Make sure to bring a camera to capture the uniqueness of this ride.
Highlights: Riders will experience Cave Canyon, ascending from pinyon/juniper through mahogany and stands of aspen to a scenic overlook. The top of the canyon will give amazing views of the valley, the Tushar Mountain Range to the east, Cherry Creek and the surrounding peaks of the southern Mineral Mountains. The ride will go into the town of Milford for a fabulous lunch at a local restaurant. This is a new ride this year, and one we think you will enjoy.

Trailhead: This ride leaves from the Beaver County Fairgrounds, located 15 miles west of Beaver on Hwy 21 just outside of Minersville. THIS IS A TRAILERED RIDE.

The Trail: This ride has numerous rugged wash crossings and a few moderately difficult hill climbs. Much of the route is along county roads and two-track roads. There are some narrow mining roads and trail sections also. Most of the route is through the lower sage brush country, but you will also travel through the pinyon/juniper covered hills as you ascend Cave Canyon and return along the Lincoln Gulch trail.
**Highlights:** This ride will showcase new country to the south of Beaver around the Fremont Wash area. You will travel through pinyon/juniper covered foothills and ascend into mahogany and oak covered rolling hills and canyons. There is also lots of open sage brush covered hills as we pass through lower Bear Valley and into Dog Valley. This is a new ride this year in our jamboree and we expect it to be an enjoyable ride.

**Trailhead:** This ride leaves from the Beaver City Complex. NOT TRAILERED.

**The Trail:** This ride will leave Beaver on county roads and venture onto some rugged jeep trails. There are some steep rocky hill climbs, and rocky ridgeline trails. If you are looking for a little more adventure come try this trail.
**Highlights:** This ride features a 50” ATV trail that passes through mahogany, spruce and aspen forests, interspersed by grassy meadows within the Fishlake National Forest. Lunch will take place at a small pristine lake and the trail will provide riders an enjoyable experience with elevations ranging over 9000 feet. We added this ride due to the high request of rides into the Tushar Mountains. This is a ride that has the potential to be impacted by winter snow pack.

**Trailhead:** This ride leaves from the Beaver City Complex. **NOT TRAILERED.**

**The Trail:** This ride will leave Beaver on graded county roads, then move to rugged two-track roads and jeep trails then end up on a 50” ATV trail through the forest. Much of this ride is easy, but you will find some rugged and challenging sections, especially returning down Kane Canyon along the rocky creek bed. There are some hill climbs and rough, rocky off-camber sections.
Highlights: This ride features a stunning trail through the Dixie National Forest as you travel to the town of Panguitch for a lunch at the Flying M Restaurant. The route will take riders through Buckskin Valley, a broad sage brush valley, into Cottonwood Canyon with its rocky precipices and scenic aspen stands. The ride will then cross Upper Bear Valley and follow an ATV trail through the Dixie National Forest with thrilling hill climbs and scenic canyons all the way to Panguitch. This trail has the potential to be our new most popular ride, with all its scenic wonders and exciting trails. Don’t miss this one.

Trailhead: This ride leaves from the Fremont Canyon gravel pit located 9 miles south of Beaver off I-15 exit 100. THIS IS A TRAILERED RIDE.

The Trail: This ride will follow some very rugged jeep trails over mountain passes into broad valleys where two-track roads and Forest Service roads will lead you to a trail through the mountains past Little Creek Peak. There are some steep hill climbs and rugged sections that will thrill you. You will enter Panguitch on county roads and city streets before returning back through the mountains to the trail head.
Highlights: This trail travels through the North Hills of the Parowan Valley on two track roads. It features the well known petroglyphs at Parowan Gap. There is a kiosk and restrooms at this stop. Next, there will be a stop to look at real dinosaur tracks in the rocks. You will also travel past the Little Salt Lake. This area is normally dry salt flat with only occasional surface water.

Trailhead: This ride leaves from the gravel pit at exit 95, 14 miles south of Beaver on I-15.

THIS IS A TRAILERED RIDE.

The Trail: This ride takes place in pinyon/juniper covered hills and high desert sage. We will travel across two-track roads through the hills until we reach the paved Parowan Gap Road. There will be some rocky hill climbs and rugged washes along the way.
#12 Charcoal Kilns

Intermediate (Open to All Vehicles) 37.3 Miles

**Highlights:** This ride features a unique chance to view historic charcoal kilns erected around the Frisco Mining District back in the 1870’s. There will be a history lesson on the area and explanation for the purpose and need for producing charcoal for the mines. This ride will also feature a breathtaking ride to the top of Frisco Peak with its amazing scenic overlook at 9700 feet elevation. This tour will visit numerous kiln sites and if you are a history buff, this ride is for you.

**Trailhead:** This ride leaves from the lambing sheds near the old Frisco town site, located 13 miles west of Milford on Hwy 21. This staging area is approximately 1 hour from Beaver. **THIS IS A TRAILERED RIDE.**

**The Trail:** This ride will follow old mining roads through the San Francisco Mountains and a 60” ATV trail for a large portion of the ride. There will also be a long climb up Frisco Peak on an unmaintained rocky road.
#13 Lamerdorf Peak

**Intermediate**  
(Open to All Vehicles)  
52.5 Miles

**Highlights:** This ride will feature the Southern Wah Wah Mountains, a fun opportunity to see some unique country in western Beaver County. You will also get to see some kilns that are not on the Frisco ride. There will be some very scenic overlooks when you reach the top of the mountain.

**Trailhead:** This ride leaves from the Wah Wah Valley just south of the Wah Wah ranch 25 miles west of Milford on Hwy 21. This staging location is approximately 1 hour and 15 minutes from Beaver. **THIS IS A TRAILERED RIDE.**

**The Trail:** This ride will mostly follow old jeep trails through the pinyon/juniper hills. Since a lot of these trails are in the bottom of canyons, there is the potential for washed out roads or difficult crossings.
**Highlights:** This ride is only offered on Wednesday the 15th. This is a short ride, about 25 miles round trip, which will take you up the 05 Paiute trail. We will climb the “face” above Beaver where you will get a grand view of the valley from “Look Out Point”. The view from the point is incredible. If weather allows we will make a short trip up to the ice caves where the founders used to store ice year around and bring it down all summer for their homes.

**Trailhead:** This ride leaves from the Beaver City Complex. NOT TRAILERED.

**The Trail:** This ride follows the 05 trail, which is a rugged trail open to all vehicles. Crossing the Table Grounds bench, you will climb up from pinyon/juniper to mahogany and oak brush hillsides leading to dense pine forests. At the top of the hill, you will find a wonderful scenic overlook of the valley. Even though the miles are short the ride is incredible and will allow you some time check out what else is offered in town.
#15 Baker Canyon

**Advanced**

*Open to All Vehicles*

**20 Miles**

**Highlights:** This ride is only offered on Thursday the 16th. This is a short ride, about 20 miles round trip. This ride will pass by the Pink Rock Quarry where rocks were hewn to build many of the old pioneer era homes in Beaver. You will be stopping at a rock where Spanish explorers chiseled their names. You will then experience Baker Canyon, a scenic basin that supplies Beaver City with much of its water supply.

**Trailhead:** This ride leaves from the Beaver City Complex.

**NOT TRAILERED.**

**The Trail:** This ride follows the old trail to the Pink Rock Quarry, which continues on into Baker Canyon. We will then circle up onto the black ridge. This is a rugged trail that is not for the faint of heart. There is pinyon/juniper with some oak patches and several green springs along the way. An enjoyable advanced ride.
#16 Princess Rock

Beginner  
(Open to All Vehicles)  
20 Miles

Highlights: This ride is only offered on Friday the 17th. This is a short ride, about 20 miles round trip. This ride will feature a trip to view ancient Indian petroglyphs along with a story of the remains of an Indian princess that were discovered at the site. This will require a little bit of walking around in order to get the entire view.

Trailhead: This ride leaves from the Beaver City Complex. NOT TRAILERED.

The Trail: This ride follows existing county roads.
